MOHEEN SULEHRIA

SOFTWARE ENGINEER

Email: moheensulehria@gmail.com | GitHub: github.com/Moheensulehria

LinkedIn: linkedin.com/in/moheen-sulehria-480338405

PROFILE

Computer Engineering Technology student with an interest in software engineering, web development, programming, and building practical digital tools. Focused on learning, problem-solving, and delivering work with care and excellence.

EDUCATION

BS Computer Engineering Technology

TECHNICAL SKILLS

Web: HTML, CSS, JavaScript, React
Programming: Python, C#, C++
Interests: Software engineering, UI implementation, AI-assisted workflows, project automation

PROJECT

Software Development Life Cycle (SDLC) — AI-assisted workflow concept

A project concept intended to help coordinate work across a software project lifecycle from one place, with the goal of reducing repetitive tasks and supporting planning through delivery. This is presented as a concept/in-progress project; specific shipped features and results are not claimed.

PORTFOLIO

Personal portfolio featuring responsive design, CSS-based 3D visuals, optional Three.js background effects, light/dark theme switching, project filtering, and a GitHub-backed content update workflow.

This résumé uses only details supplied for the portfolio. Add verified dates, institution name, certifications, experience, and project links before using it for formal applications.
